FOLDING ARM AWNINGS

WHY CHOOSE PINZ?

Pinz is a leading Australian manufacturer of beautiful blind, awning and shade products.

When you choose from our wide range of folding arm awnings and shade systems as featured in this selection catalogue, the Pinz brand is your guarantee of excellent quality, innovation and years of enjoyment.

You can have confidence that your new awning is manufactured in

Australia, by Australian workers, using the very best materials and the latest in technology, and has exceeded our exacting quality standards.

We invite you to visit one of our many Pinz retailers to assist you in your selection process. Our retailers are of the highest standard and will provide you with great service and support for your investment.

Thank you for considering Pinz.

FOLDING ARM AWNINGS

Maximise sunlight during winter and extend your living area over summer. Folding arm awnings add shade and style to outdoor areas.

As well as being a fantastic design feature of your home or business, a folding arm awning can add value to your property with an attractive and functional outdoor space, while providing significant energy savings.

Pinz CleverAwning options allow your awnings to close themselves when it gets windy, open themselves when the sun comes out, as well as open or close at various times of the day.

FREYR

The Freyr is a high quality open roll folding arm awning that features distinctive design and great versatility and combines protection from the sun with modern aesthetics.

Available with hood or semi-cassette options, the Freyr also features the optional drop arm bracket, which allows the awning to project out further than its width.

Don't let the Freyr's good looks and features fool you - the Freyr is a beautiful European awning at an entry level price providing a great option for commercial developments or the budget conscious home owner.

APOLLO

The Apollo is a premium open roll folding arm awning with a difference, providing versatility in size and flexibility in installation at a fantastic price point.

Suitable for wider widths, the Apollo units can be joined together to achieve spans up to 12m, and features mounting flexibility through the use of a square back bar.

The Apollo is available with a hood profile or the option of a semi-cassette and also features the optional drop arm bracket allowing the awning to project out further than its width making it perfect for small courtyards and limited space.

RA & MARICI

Featuring stylish European design and manufacture, the Ra is a beautiful, high quality, full cassette folding arm awning.

Providing the very best in protection for your awning the full cassette completely encloses the fabric roll and arms leaving a stylish addition to a home or business.

The Marici plays off the strength and styling of the Ra with its high quality, full cassette system but introduces the designer feel of upgraded aluminium end caps.

Also featuring hidden fastenings and a more streamlined colour coordination, the Marici really is a premium offer for a full cassette folding arm awning.

Full customisation is possible with the Marici offering the option of custom powder coating to complement and enhance your outdoor décor.

MYKA

The Myka is an elegant full cassette awning offering style and versatility alongside the latest design features.

Suitable for wider widths the Myka can be joined together to achieve a maximum width of 14m whilst maintaining its sleek full cassette and offering great flexibility in installation.

Tailor made to compliment any home or commercial property the Myka delivers a flexible shading solution while creating an atmosphere of sophistication thanks to the option of LED lighting along the arms.

ARINNA

The Arinna is the ideal solution for covering large open spaces in one multiple arm awning.

This beautiful full cassette awning is perfect for larger domestic and commercial applications and its high quality European design and construction flexibility allows the Arinna to reach a total width of 21m with a 4m projection.

Featuring up to 6 arms depending on width, the Arinna provides constant tension across a variety of sun protection fabrics and will turn any outdoor area into a versatile and enjoyable entertaining space.

Where the Arinna really shines are those requirements for a larger than standard awning for substantial residential or commercial installations providing easy shade for up to 7m wide x 4m projection.

UTU

The Utu is a robust and simple shading system that is often used to provide shading in events and hospitality venues whilst equally suited to residential installations.

Our ability to print the Utu fabric membranes allows for large format branding opportunities or provides the freedom for designers to create vibrant and interesting outdoor environments.

SUNNA

The Sunna is pure style. Providing up to 36m² of retracting shade the Sunna can either be bolted down or on wheels for the ultimate in adjustable shade.

Ideal for cafés, restaurants, resorts, or in your special backyard entertaining space.

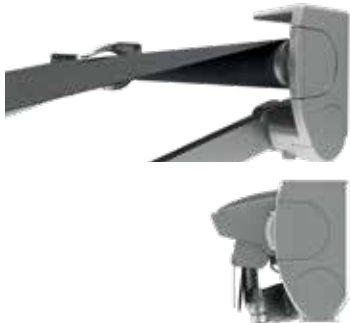

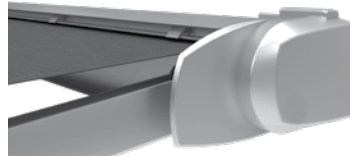

Use the following selection guide to assist in choosing your ideal folding arm awning solution.

AWNING COLOUR

Each of our awnings are available in a range of modern colours that will compliment your outdoor area and bring your entertaining space to life. Consider choosing an awning colour to match your properties key paint or powder coat colours or a contrasting colour to make a design statement.

Colours are to be used as a guide only. Refer to Pinz Folding Arm Awning componentry swatches for true colour matching and colour indication. Please contact your retailer / sales representative to request these, or to discuss the option of a non-standard / custom colour choice.

Please note: refer to page 19 for colour / powder coat limitations for specific products.

OPERATION

Most awning and shade products are available as a manual (crank) operation as a standard or you have the option of choosing remote control automation. Automation allows additional protection of your awning through our CleverAwning options using smart technology. Automation will also help you get more use from your awning – opening and closing at the touch of a button.

Manual (crank) operation

Remote control automation (motorised) operation

Note: Voice control or smart phone operation is available with some automation options

FABRIC

Select the colour of your awning fabric from a range of contemporary and classic colours available from our WeatherMax 80 selection. Consider the design and colour scheme of both your awning and your outdoor area when making a colour choice.

WeatherMax 80 provides a high-end fabric option and is available in many colours however if you are matching another awning or prefer something with more texture or patterns you may speak to your retailer about other fabric options.

EXTRAS

Choose from some great customisation options to really get the most from your investment. Consider how a high quality digital print can create a unique and inviting atmosphere or provide marketing and branding opportunities in commercial installations, attractive LED lighting and other product options will extend the use of your awning throughout different times of the day or year.

- ★ Custom printed awnings
- ★ Adjustable pitch control
- ★ LED lighting kits
- ★ Telescopic poles

ENERGY EFFICIENCY

Folding arm awnings are a stylish and functional way to improve the energy efficiency of your home or business.

Awnings can reduce solar heat gain in the summer, lowering internal room temperatures and saving on air conditioning costs, whilst their flexibility enables you to maximise sunlight during winter providing light and warmth.

CLEVERAWNING OPTIONS USING SMART TECHNOLOGY

- automation (motorisation with remote control operation)
- sensors (wind & sun and motion sensors)
- voice command through smart home devices

Pinz folding arm awnings feature CleverAwning options that allow your awnings to close themselves when it gets windy, open themselves when the sun comes out, as well as open or close at various times of the day.

Using the latest smart technology these features make it easy to control light and shade - cooling your home and protecting your awning when necessary - all at the push of a button.

Sun, wind or motion sensors and timers will dramatically increase the amount you use your awning.

Open or close your awning via voice command or use a smart device app to set up timers or scenes that can be integrated with other smart home products such as indoor blinds, music and lighting.

WEATHERMAX 80 FABRIC

Super high strength and durability combine with long-term colour retention to deliver a truly versatile outdoor fabric, perfect for the harsh Australian climate.

Utilising breakthrough UV technology, WeatherMax 80 not only goes the distance with the long term colour retention of traditional acrylic fabrics, but reaches far beyond for superior water resistance and durability. With engineered yarn memory, WeatherMax 80 maintains a sophisticated appearance and won't exhibit unsightly sagging from age, rain or exposure. The WeatherMax 80 HydroMax finish means no coatings for a cleaner environment and an excellent breathable fabric, for outstanding mold and mildew resistance.

WeatherMax 80, a perfect balance of science, toughness and elegance combined to battle the elements and provide the finely balanced outdoor fabric that's perfect for your new folding arm awning and outdoor shading solutions.

5 Year Limited Warranty*.

*some limitations apply

Outperforms acrylic fabrics

- 33% less bulk - allows more fabric in less space
- 14% lighter - less stress on the frame
- 50% higher water resistance
- 6X more resistant to abrasion

Outperforms solution-dyed polyester fabrics

- Twice the fade resistance
- Double the strength retention

CUSTOM PRINTED AWNINGS

Completely customise your folding arm awnings and shade systems with digital printing by Pinz. The opportunities are endless once you start to realise what is possible – photos, drawings, logos, patterns, designs, texts, colours

Transform your outdoor entertaining area with customised printed awnings to suit your space and reflect your lifestyle. Create beautiful scenes or unique patterns and designs.

Increase branding opportunities for business, attract attention and stand out from the crowd with greater exposure by using your commercial spaces in a smarter way.

AWNING SIGN WRITING & BRANDING

Let our creative print and sign writing department custom brand your awning. Make an impact with full colour digitally printed logos and text in high quality UV stabilised vinyl.

ADJUSTABLE PITCH CONTROL

Adjustable pitch control allows you to change the slope of the awning at your convenience, giving you the flexibility to take advantage of the change in position of the sun throughout the day or at different times of the year.

LED LIGHTING KITS

LED light kits add that designer finishing touch to your awning creating an inviting atmosphere that you can enjoy well into the evening. Picture outdoor dining and entertaining in style.

TELESCOPIC POLES

The addition of telescopic poles provides additional stability allowing you to continue to enjoy the benefits of your awning even when weather conditions get a little windy. When the support poles aren't required they fold neatly up in to the front bar providing you with uninterrupted space for you to entertain or relax.

Note: not recommended with motorised awnings.

Please refer to page 19 to confirm which extras are suitable for each awning option.
